The Trouble with Timeshares

What vacation and destination insiders know about how to buy timeshares boils down to this: They beat the system.

Because the trouble doesn't come from timeshares, it comes from big systems – the way big timeshare operators "move product" and "manage inventory." They hardly listen at all when they are selling a timeshare, and then they set up their agreements to work entirely in their own favor.

Insiders simply locate a vacation property that doesn't work that way.

A PERSONAL SOLUTION OF YOUR OWN

You have the right – and the ability – to secure a personal timeshare solution that fits perfectly with your priorities, your desires, your own vision of a memorable vacation you can count on every year. Yes, you can have this and also have privileges to be welcomed in the best properties around the world, when you decide it's time for some variety.

Welcome to Spicebush

Spicebush at Sea Pines has, for generations, offered families, couples, and households of every kind an easier way to secure a reliable, affordable, annual vacation in a resort so innovative that it made history.

The desirability of vacationing here made this the place where the most famous timeshare system was originated. Marriott Vacation Club began right here in Sea Pines, back in the early 1980s, because Hilton Head Island was so consistently where so many people wanted to go for their dream vacations.

The founder of the legendary Sea Pines – the community that became America's favorite vacation island – envisioned villas right here at Spicebush where people could get not only the best vacation of their lives, but also one they could count on every year.

How the Insiders Evaluate

From our inside experience with successful timeshare owners and vacationers, we offer four secrets to buying Hilton Head Island timeshares.

Not only is our island an adult's dream "playground," but we also offer

immaculate children's **playgrounds** in just the right places, with just the right equipment to be an outlet for their amazing energy and a focus for their endearing capacity for joy.

Secret #1: Assess & Analyze

Begin by thinking carefully about what you most want to enjoy on your vacations. Take time to discuss your vacation dreams with the family, the spouse, the partner, the loved ones.

With a clearer vision of your desires, then it's time to discover the destination that can deliver them.

WHAT MADE HILTON HEAD AMERICA'S FAVORITE ISLAND

Hilton Head Island presents the world with a panoply of people's favorite ways to play. **Golf** and **beaches** are only the beginning. We are blessed also with an out-sized **arts community**, a rich **history and heritage** with organizations that help you explore them, **natural beauty** in abundance that's protected and preserved for posterity, **waterways** that thrill every kind of enthusiast, from jet skis to sail boats to yachts, and **tennis** courts that have hosted the champions of the world.

There are 16 miles of **leisure paths** right here in Sea Pines, making walkers, joggers, bicyclists, birdwatchers, and hand-holding strollers happy every day. Another 64 miles of leisure trails are protected and maintained by the Town of Hilton Head, leading to diversions and attractions all over our island.

Not only is our island an adult's dream "playground," but we also offer immaculate children's **playgrounds** in just the right places, with just the right equipment to be an outlet for their amazing energy and a focus for their endearing capacity for joy.

WHAT THE INSIDERS KNOW ABOUT GOLF

Right here in Sea Pines, you'll find the legendary Harbour Town Golf Links – the scene of the annual Heritage Classic and the focus of a worldwide TV audience of millions each year. Insiders know that two more courses are right here to enjoy in Sea Pines, Heron Point by Pete Dye and Atlantic Dunes by Davis Love III, the latter of which was named Course of the Year by the National Golf Course Owners Association.

With more than 30 more courses in easy reach, your selection is vast and the variety is fascinating. The most prominent golf course designers presented some of their finest work here on Hilton Head Island. From classic links to the latest developments in design, there's a course to click with your game, and you'll have the time of your life exploring the possibilities to discover it.

WHAT THE INSIDERS KNOW ABOUT BEACHES

Every year, our Hilton Head Island beaches appear on somebody's "best in the world" list. Nearly sugar-white, with friendly surf, they beckon families, couples, lovers, and loners alike. Everyone finds a favorite spot for enjoying the seemingly endless days of summer on this sub-tropical paradise. And beach season is a lot longer than summer here, too.

THE NEIGHBORHOOD WRAPPED IN A RESORT

At Spicebush, our privileged positon in the original Sea Pines plan means that today we enjoy the feel of a neighborhood, while being embraced by the beauty and amenities of a world-class resort.

THE ADVANTAGE OF SATISFACTION

For many years we've noticed that 40% or more of our visitors on Hilton Head Island are returning guests. This is just one of the persistent signs or our secret ingredient – **satisfaction**.

Hilton Head Island delivers pleasure and satisfaction in equal measure. Not necessarily an "of course" when you think about it. It's one thing to be fun. It's even more to be satisfying. And the experiences people have when they vacation here keep them coming back at a rate that exceeds even the world's most famous destinations.

This fact speaks in favor of enjoyment, yes, and just as important it testifies to **value**.

WITHIN EASY REACH

Another reason Hilton Head Island became America's favorite – and a powerful fact in favor of the value of a vacation home here – is that our island is **remarkably accessible**.

We are situated in easy reach of any place east of the Mississippi River. Even geography fans sometimes have in mind that we're south of Boston. New York. and Washington, D.C. Well, yes, but we're *west* of them, too. The westward slant of the east coast – and the semi-circular 'bite" out of that coast that sits at the top of Florida – places Hilton Head Island straight south of Ohio and Western Pennsylvania.

Thus, we are **more centrally located** than most folks realize. This little-known advantage plays a big part in our popularity.

It's not just the East and the Midwest though. The rest of North America vacations here, too. Thanks to Savannah-Hilton Head International Airport (SAV) and our own regional Hilton Head Island Airport (HHH), folks get here and back from everywhere.

Financial accessibility is part of the Hilton Head Island story, and Spicebush at Sea Pines played a pivotal role in making it that way. As a property that was designed from the first to accommodate people who make sensible financial decisions, Spicebush offers a luxurious vacation they can count on every year without displacing a big piece of their budget.

Your independent advantage arises from the fact that Spicebush figured it out before the big guys. Our approach is more accessible because our residents were always sensible.

Spicebush is a resort vacation property, not a chain. Yet still it brings worldwide luxury exchange privileges without big-business, cookie-cutter rules.

> *"I love the marsh. I don't know of any place that smells like this. It's a magnificent smell. It's the smell of where all life comes from. I love that all shrimp, all crab, all oysters are born in the marsh."*

Secret #2: Define Your Dream

Here's a suggestion for the conversation you have with loved ones about what would make your dream vacation. Think in terms of three dimensions:

WHAT YOU ENJOY NOW

This is probably the beginning of your assessment. Vacations indeed are a getaway, but wise planners don't get away from the things they love.

WHAT YOU'D LIKE TO DO MORE OF

This is the next thing to consider. This is where golf, fishing, boating, tennis, and the like tend to appear for many people. Some seek our beaches because they appear every year near the top of somebody's list of the very best beaches in the world.

WHAT YOU'D LIKE TO LEARN

This is a train of thought to consider, too, and often this is what narrows down people's preferences most of all. Getting in touch with personal or cultural history, exploring signs of prehistoric civilization, learning to sail, taking up painting – these are merely a short sampling of some of the loves people discover or cultivate here on Hilton Head Island.

And yes, a few avid golfers and tennis enthusiasts never touched a club or racquet til they came to Hilton Head Island. Sometimes we're just as much a birthplace as we are a paradise.

Secret #3: Beat the System

You've already done the first thing that positions you to beat the timeshare system. You've brought **your dreams and desires into clear focus**. When you really know what you want, you have a solid footing for getting the good and turning your back on the bad.

The second bit of beating the system is to **recognize immediately who you are talking to**. Leading questions, fast answers, subtle power-plays even in what should be a normal conversation – these are all signs that you are talking to somebody on the side of the system, somebody trained to move product and force decisions as fast as they can, somebody trying to "move that unit today."

Can you expect a person like this to understand your dreams? No. So how do you guard against this? Follow these three steps, and you'll protect yourself from hard-selling timeshare sales people:

1. Listen first to yourself
2. Trust your own sense of the truth
3. Take the direct route to an honest discussion

1. LISTEN FIRST TO YOURSELF

You can feel in a minute whether you are talking with somebody who wants to understand how **your aims** look to you. Are they looking for solutions to what you want to have and what you want to avoid?

2. TRUST YOUR OWN SENSE OF THE TRUTH

Your gut is not mistaken. If somebody is selling you a timeshare no matter what, just say goodbye. It's the "no matter what" that makes the difference later between a burden and a precious asset.

3. TAKE THE DIRECT ROUTE

The direct route to an open and honest discussion – a chat with somebody you can count on – is to call Spicebush at Sea Pines at 843.671.5551, or send us your questions via our website.

The truth is, we love to talk with people about their dreams. We've had the honor of seeing them come true for more than 40 years.

Secret #4: Accept the Praise

Part of the satisfaction you can look forward to when you beat the timeshare system is the **sincere and ongoing gratitude** of your loved ones. We've seen it for generations.

The stories begin with a conversation between someone who's given careful thought to what they and their loved ones want, and someone who is grateful to listen.

Your Gateway to the World

If owning at Spicebush, rather than renting, interests you, then you'll be delighted to know that you don't have to pass up the personal attention that sets Spicebush apart to get the foremost exchange privileges in the world. Santorini, Portofino, Palm Springs, Maui, and more are waiting to welcome you.

An important benefit you'll hear about when you consider a timeshare is that many of them come with exchange privileges at vacation destinations around the world. The two best-known networks for this are RCI (Resort Condominiums International), with more than 6,000 exchange properties, and II (Interval International), which adds thousands more properties in more than 80 countries around the world.

Either of these networks can enable you to exchange your timeshare weeks for another destination, here or abroad.

The flexibility this provides is a huge incentive. But you don't have to buy into one of the big timeshare systems to get it.

Ownership in Spicebush at Sea Pines brings with it all the exchange privileges of RCI and Interval International, without signing on to one of the gigantic timeshare systems.
